How to use Spotlight on Careers

These episodes are designed to be used on demand and can be played as part of a lesson, tutor session, assembly or individually by learners.

For a full 45-minute lesson, play the entire Spotlight on Careers episode, pausing when instructed to for learners to complete the industry challenge.

For a shorter lesson, opt to play a specific segment of the episode over a series of lessons or with learners continuing to watch independently.

Resources required

- Device with internet access
- Chosen Spotlight on Careers episode. You can access these on our virtual platform by registering [here](#)
- Pens and paper to complete the task

Learning outcomes

- Learners will understand the variety of opportunities, functions and scope of sectors by hearing from industry experts
- Learners will gain insight into a variety of jobs and skills used within the Engineering and Manufacturing, Construction and the Built Environment, Creative and Design, Digital, Legal Finance and Accounting sectors from young role models including apprentices
- Learners will explore and recognise how their chosen subject links to a variety of careers through a short industry challenge
- Learners will discover the value of apprenticeships and technical education pathways and what opportunities the learner may be best suited to for their next steps

Gatsby benchmark framework

Each 45-minute
video is split into
four segments

Spotlight segment	Gatsby benchmark	Description
Segment 1 Overview of the industry	Gatsby benchmark 2 and 5 Learning from career and labour market information, Encounters with employers and employees	Outline from an industry expert that summarises, describes and illustrates the industry, the work the company or organisation does, the trends, what skills are needed in the sector.
Segment 2 Hearing from young role models and new entrants	Gatsby benchmark 5 Encounters with employers and employees	Young professionals including apprentices, share in a peer to peer way about their own career journeys, what they do in their roles and the skills they use.
Segment 3 Industry task	Gatsby benchmark 4 Linking curriculum learning to careers	A short industry-based task incorporating STEM subjects and skills where appropriate and other subjects or skills, highlighting to learners how their curriculum relates to the careers in this sector.
Segment 4 Pathways	Gatsby benchmark 5 and 7 Encounters with employers and employees and Encounters with further and higher education	Industry experts present the post-16 options for learners, exploring college-based and work-based routes including apprenticeships, traditional academic and technical and vocational pathways including T Levels.

CDI framework

Explore possibilities	Grow throughout life	See the big picture
